‘What the Secret World can teach us about problem-solving and creativity’

Innovation and creativity do not come from a pre-planned, top-down written strategy. It is the task of leadership to develop a strategy to facilitate innovation and creativity, maintaining a culture of staying ahead of the curve. Especially, now we live during a time of rapid technological change and organisational disruption. The secret is finding people who avail of a very different talent, characterized by unconventional thinking, considering radical change in processes. People come from unexpected backgrounds and walks of life, with wide ranges of talents, random skills and outside interests.

The Medici Effect

The book The Medici Effect brings to life the power of creativity to drive change. Focussing on the role of different people, from different backgrounds and experiences creating an explosion of ideas that lead to a reformation. A reformation that happened in the 15th and 16th century in Florance, Italy, called the Renaissance. Such a collision of cultures is what will drive the best work today in our business and creative industries everywhere.

Join as an editor

Everybody can qualify to read and edit a book, wherever you are in the Ogilvy or WPP global network. Although generative AI models can summarize books, we must stick to human intuition and contextual relevancy and understanding focusing on insights, creative thoughts and inspiration by judging every sentence building an engaging story of books. All books are recommended by Ogilvy and WPP key people. Visit our [about page](#) on the Global Reading Club platform, to see who participated as a reader/editor. Participation is on a voluntary basis.
