Misbelief

Our journey is to be in search for the truth, fighting and controlling the devastating effects of the funnel of misbelief.

Misbelief is caused by people who spread false and untrue facts, making other people believe in their truth. Hold on to your own opinions you got in the early stage of life, before you embrace other believes and opinions. Opinions which may be very different from yours. Think, evaluate, decide and then act. Avoid continuous stress situations, as much as you can, as stress is the breeding ground of misbelief. More resilient, people are freer and do not adopt misbelief. Don't open the door to be pulled into the devastating funnel of misbelief.

"In the light of World Mental Health Day in October this year, it is our collective duty and responsibility to guard the truth, as misbelief undermines people and society's wellness."

The 10 laws of trust

Building the bonds that make a business great

Trusting teams working together achieve more than their individual actions. The condition is working in a high-trust culture, which is fundamental to creativity and a high moral. In a culture, based on mutual trust and respect, the best ideas win and allow disagreement to generate even better ideas. There are three individual elements on which trust is built: Character, Competence and Authority. Trust is the number one leadership competency, as trust is an economic driver. In business, as in life, trust is elementary. Trust is a learnable competency.

Everybody can qualify to read and edit a book, wherever you are in the Ogilvy or WPP global network. Although generative AI models can summarize books, we must stick to human intuition and contextual relevancy and understanding focusing on insights, creative thoughts and inspiration by judging every sentence building an engaging story of books. All books are recommended by Ogilvy and WPP key people. Visit our [About page](#) on the Global Reading Club platform, to see who participated as a reader/editor. Participation is on a voluntary basis.
